PROFESSIONAL SUMMARY

MBA Finance & Operations graduate with hands-on experience in equity research, fundamental analysis, and financial modelling across BFSI, FMCG, and tourism sectors. Built investment portfolios across six income brackets and conducted EIC-based analysis of NSE-listed companies. Proficient in Excel-based financial modelling, ratio analysis, and cash flow evaluation. Targeting equity research, investment analysis, or financial advisory roles.

WORK EXPERIENCE

Outlook Publishing Company - Finance Intern

May 2024 - Jul 2024

- Evaluated 10+ payment gateways (Razorpay, Stripe, PayPal, Cashfree) across transaction structures, GST applicability, and settlement cycles; recommended 3 gateways to management for Outlook's digital subscription model.
- Analysed 20+ asset classes and built a risk-return comparison model in Excel; designed income based investment portfolios for 6 income brackets (₹10L - ₹1Cr) with minimum 2 allocation strategies per bracket.
- Conducted primary research with 85+ respondents on investor behaviour and risk tolerance; performed financial analysis and 2-year forecasting for 9 NSE-listed companies (IndusInd Bank, Axis Bank, Titan, Havells) using NII, PAT, EPS, EBITDA, and ROE.
- Analysed cash flow statements of 12 companies across FMCG, FMCD, and BFSI sectors (HUL, ITC, HDFC Bank, ICICI Bank, SBI) to evaluate operational cash generation and financial stability.

ACADEMIC PROJECTS

Fundamental Analysis - Tourism Industry | 4R Investments Pvt. Ltd., Hyderabad

Aug - Oct 2024

- Applied the EIC framework (Economic, Industry, Company analysis) to evaluate 3 NSE-listed tourism companies IRCTC Ltd, Thomas Cook India, and EaseMyTrip, using 5 years of financial data (FY 2019–20 to FY 2023–24).
- Computed 9 financial ratios, Operating Profit Margin, ROA, ROCE, EPS, Asset Turnover, Interest Coverage, Debt-to-Equity, P/E, and P/B across all three companies for each fiscal year to assess profitability, solvency, and valuation.
- Benchmarked the tourism sector against cement and automobile industries using macroeconomic indicators; tracked India's GDP recovery from 5.8% (FY21) to 7.3% (FY24) and tourism sector rebound of 155.45% in FY23 following a -73.72% contraction in FY21.
- Identified IRCTC as the strongest investment candidate zero debt throughout the study period, ROCE of 51.34%, and Operating Profit Margin up to 46.80% against Thomas Cook's OPM of 3.15% and ROCE of 9.76% in FY24.

Sales & Profit Performance Dashboard - MS Excel

2024

- Built an interactive Sales & Profit Performance Dashboard in MS Excel to analyse 400+ sales records across regions, products, and time periods using Pivot Tables, Pivot Charts, Slicers, and Timeline filters.
- Tracked KPIs including Total Revenue, Total Profit, Order Volume, and Profit Margin % with real-time drill-down capability by region, product category, and month.
- Identified East Region as the highest revenue-generating market and Laptops as the primary profit contributor; determined Headphones as the highest profit-margin product through product-level analysis.
- Detected a significant sales decline in June through monthly trend analysis; demonstrated that higher revenue does not always translate to higher profit highlighting the importance of margin-focused product strategy for business decision-making.
